

# Issues Faced by Marginalised Communities in the Context of COVID-19

**134**  
Respondents

## Caste and Religion based violence in the community.

**54%**  
Respondents need relief materials.

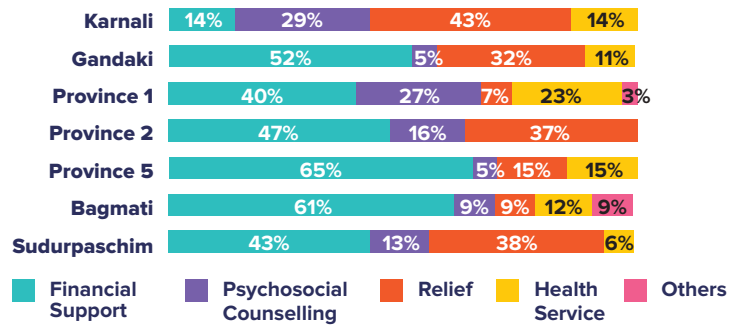

of them reported that the relief material lasted for a week.

**75%**  
also reported that **NOT ALL** the marginalized community members had received relief support.

## Required Social Support

Majority of the respondents need **FINANCIAL SUPPORT** the most, followed by **RELIEF** and **PSYCHO-SOCIO COUNSELLING**.

**39%**  
of the respondents are unaware of the COVID-19 testing centres.

**31%**  
reported to be unaware of quarantine facilities in their communities.

**42%**  
of the respondents were unaware about the **SEPARATE QUARANTINE FACILITIES FOR WOMEN AND MEN**

The respondents felt that the **LOCAL LEVEL** should play a **MORE ACTIVE ROLE** in order to mitigate the effects of the crisis.

## Recommendations

- 1 Conduct awareness raising campaigns at the local level to respect diversity.
- 2 Provide the youth with income generating opportunities.
- 3 Media needs to disseminate factual news to curb disinformation and fake news.
- 4 Facilitate proper market linkages for small scale entrepreneurs.
- 5 Mobile youth volunteers at the community level.
